Circular no- OS/05/25-26

Dear Parents,

This is to inform you that the Gardasil IV vaccine (for protection against cervical cancer) is being provided free of cost by government health centres in the school.

Eligibility:

The vaccine is available for students (girls) in the age group of 14–15 years.

It helps protect against cervical cancer by preventing infections caused by harmful HPV viruses. Timely vaccination ensures better long-term protection.

Action Required:

- Kindly fill and submit the consent form sent with your child.
- Ensure your ward receives the vaccination in your presence in the school premises

The school will be maintaining records of eligible and vaccinated students, along with reasons for non-vaccination (if any).

We seek your cooperation in this important health initiative.

Regards,

Open Sky School
